New Economic Strategy development

Stirling Council and its partners are developing a new Economic Strategy which will set out our vision for future growth and prosperity of Stirling. Like every area of the UK, Stirling is facing significant economic challenges. However, these challenges also bring opportunity to set out a new vision for Stirling's economic future and to ensure that we create and sustain an environment that allows our businesses and communities to thrive.

We need your help to ensure the strategy is reflective of the needs and aspirations of all of those with a stake in the future of Stirling.

To support the development of this strategy we have appointed economic consultants EKOS to help us deliver a Strategy that is ambitious, exciting and inclusive. As part of their work we have asked them to design and review a survey for our key businesses, and communities to input and to try to ensure as wide a sense of ownership over the final Strategy as possible.

As such, Stirling Council and our partners would really appreciate you giving your time to complete the Stirling Economic Strategy - Community Survey.

I hope you are able to support this crucial piece of work; if you have any queries or require further information please contact the Invest in Stirling team at investinstirling@stirling.gov.uk
